NOTES FOR 3057 MAP

The Clan capitals are based of Canon (JF, W, GB) from an examination of Objective Raids and the NC capital of Irece is based on later evidence. The SV and SJ capitals are based of the worlds with the largest concentration of forces.

Additionally, although called the Achernar PDZ, Achernar is not in that FedSuns region. Nanking is the only PDZ capital from pre-3057 in that region so it has been designated as the capital.
